

PHILIPS

SmartMeeting

- Compact and portable
- Professional 360° sound pickup
- Intelligent noise reduction
- Sound amplifier
- Full-duplex communication
- Plug-and-play
- Wireless bluetooth
- Professional meeting client application

MODEL PSE-0401

Drive-free installation

Plug-and-play

When use, you can just unwind the built-in wind-able 1m long USB cable and connect it to an intelligent device without other steps. This is easy and fast.

Smooth Wireless Connection

Easy Bluetooth pairing

It supports quick connection of Bluetooth to computer mobile phone, tablet and other devices, and is compatible with multiple Android, Apple and Windows Systems. Android8.0/Mac OS10.10/ Windows 7 or later

Giving you a face-to-face meeting experience

Professional Sound Pickup - Easy and Smooth Conversation

It adopts four highly-sensitive sound receiving microphones to form a circular sound pickup matrix and is suitable for a variety of small and medium-sized meeting rooms furnished with round table, long table, etc.

- 4 microphones
- 360 surround sound
- Diameter: 6M Long distance sound pickup
- It can clearly receive and record normal conversation voice within a diameter of up to 6m.

Worry about the impact of various noises?

Intelligent Noise Reduction and Echo elimination

It adopts DSP noise reduction technology to optimize and adjust hardware configuration, upgrade automatic noise reduction core chip, effectively filter and shield environment noise and eliminate echo, so it can accurately pick up human voice details even if there is typing sound, car horn sound or machine noise, to provide users with perfect sound experience.

Full-duplex Communication

Perfect two-way smooth conversation

Sound reception and reproduction are carried out synchronously in separate channels, without mutual interference to realize real-time two-way conversation. It is suitable for online communication between individuals or small and medium-sized meetings.

Dual-speaker Power Amplifier

Delivers loud, clear and pleasant sound for immediate listening upon transmission. With two built-in 40mm medium-high frequency speakers and high SNR power amplifier chips, it supports strong output of large-range stereo sound. More importantly, it can achieve true sound amplification and output, and 1:1 sound recovery without interference, so as to deliver extraordinary listening effect.

40mm : Medium-high frequency speaker

1:1 : Sound amplification and restoration

Intelligent noise reduction

Compact and portable

It adopts "round" shape design and minimalist style of slightly-curved surface to create a simple and smooth streamlined visual effect.

PRODUCT SPECIFICATIONS: MODEL PSE-0401

MIC ARRANGEMENT	RING
NUMBER OF MICS	4*MIC ARRAY
MIC TYPE	ANALOG SILICON MARK
MIC SENSITIVITY	-32DBV
SAMPLING RATE/SAMPLING BITS	48KHZ/16BIT
VOICE PICKUP DISTANCE	ABOUT 3M
COVERAGE ANGLE	HORIZONTAL 360°
SIGNAL TO NOISE RATIO	65DB
BUILT-IN SPEAKER	3W*2
BLUETOOTH	5.0
BUILT-IN USB CABLE	1 METER
COMMUNICATION MODE	FULL DUPLEX
BUILT-IN BATTERY	2500MAH
PC OS	ANDROID8.0\MAC OS 10.10\WINDOWS 7 OR LATER
INTERFACE	USB2.0(DRIVER FREE)
BUTTON	POWER, VOLUME +-, BLUETOOTH, RESET
BIS CERTIFICATE	YES
